Invasers Alleged to Have Lost 3,000  
In Fierce Battle, Leaving 600 Dead  
on the Field.

Paris, Feb. 25.—The latest official statement issued by the French War Office describes an important success for the allies in the neighborhood of Les Eparges, where two German regiments, driven from their position, lost more than 3,000 men. Six hundred German dead were found along a small section of the line carried by the French.

The statement also speaks of spirited artillery engagements from the Lys to the Aisne, which the French claim have been all in their favor. London, Feb. 25.—Steady advance of the French all along the line is reported in the official communiqué from Paris last night. The offensive movement begun last week seems to have continued without a serious check anywhere along the battle-front, and semiofficial dispatches tell of the taking of trench after trench from the Germans.

The French are pinning more and more of the German forces into a more or less set procedure. The reports invariably show first a bombardment by heavy artillery, and then a charge. Many of the charges resulted in fierce hand-to-hand fighting, with heavy losses on both sides.

Berlin, in its official report, has little to say beyond admitting the continued offensive of the enemy. The French are pinning more and more faith in their heavy artillery. Within the past twenty-four hours there have been half a dozen spirited actions, in all of which Paris claims to have won sweeping victories. Most of the heavy gun actions were reported from the territory lying between the Lys and the Aisne.

## CHESAPEAKE BOATS EXEMPT.

Rigid Requirements of La Follette  
Bill Not Applicable to Them.

Washington, Feb. 25.—Chesapeake Bay shipping is exempted from the rigid lifeboats and crew requirements in the compromise La Follette Seaman's bill, which was agreed upon by the House and Senate conferees.

Requirements for vessels plying in bays, rivers and harbors will remain under the jurisdiction and discretion of the Board of Steamboat Inspectors, in whose hands they have been for more than a half century. It is not believed, therefore, that the present regulations for lifeboats and crews for the Chesapeake Bay steamships will be disturbed.

When the Seaman's bill was before the House Committee on Merchant Marine and Fisheries, representatives of the Chesapeake Bay steamship lines vigorously protested against a provision which would have required the carrying of life craft to the full passenger capacity of the vessels, as well as against a provision which directed that all passenger steamships should carry crews that have had three years' experience on the Great Lakes or across the seas. It was shown the committee that the life-craft provision would cause the remodeling of practically all the passenger steamers on the Chesapeake Bay at an enormous cost, which would result in reducing the capacity of the steamers.

## NEWS OF THE DAY

The Austrian government has taken over all stocks of rye, barley, corn and flour products. It will distribute bread through district organizations.

Elijah Caudill and his wife, an aged wealthy couple, who lived alone in their home in Morehead, Ky., were burned to death yesterday.

Figures were presented in the British Parliament this afternoon showing that the price of bread is higher in New York than in London or Paris.

The Dutch authorities yesterday seized the merchant ship Hanna following the discovery of 3,000 pounds of copper hidden among the cargo of phosphates. It is charged that an attempt was being made to smuggle the metal into Germany.

Following her order restricting all shipping in the Irish Sea and North Channel as a result of the raids of German submarines and the disasters to British shipping, due to mines sowed by the Germans, the British admiralty has taken further precautions to protect English merchant vessels. While the list of disasters piled high, today claiming the heaviest toll of victims yet in the "bread war," the British admiralty was preparing to have all vessels bearing foodstuffs, ammunition or general supplies to English or French ports met 200 miles beyond the German war zone by torpedo-boat destroyers and convoyed to their destination.

Richard P. Stegler, a German, was arrested by the Federal authorities in New York yesterday charged with obtaining a passport as an American citizen under a false name and upon false pretenses. He was committed to the Tombs. Gustav Cook, of Hoboken, was arrested charged with being implicated in the conspiracy. By these arrests the Department of Justice believes it has established the existence of a long suspected plot to equip German citizens with American passports and send them to England as spies. The facts will be submitted to President Wilson for such disposition as he sees fit. Stegler had indicated his allegiance to this country by taking out first naturalization papers.

President Wilson, speaking last night at the Berea College meeting in Memorial Continental Hall, Washington, ridiculed "the airs that high society gives itself," and said: "The world could dispense with high society and never miss it; high society is for those who have stopped work and no longer have anything important to do."

A double tragedy was enacted at Arthur Durgin's sporting camp on Ellis Pond near the headwaters of the Kennebec, early yesterday, when Percy Hawes, Durgin's son-in-law shot and killed Claude Bouchard and then committed suicide. No reason is known for the tragedy.

The first tangible result in Washington of the sinking of the American steamships Evelyn and Carib in the mine area of the North Sea was the action of the Bureau of War Risk Insurance yesterday in deciding upon the temporary suspension of insurance on ships bound for North European ports. This decision followed a conference by President Wilson with Secretary of the Treasury McAdoo and Assistant Secretary of the Treasury Peters at the White House. The decision reached was that there should be an immediate horizontal increase in the rates on risks in the zone of war. Pending a meeting of the advisory insurance board to fix new rates no policies will be issued on such risks.

The Cathedral of Notre Dame at Rheims is now a wreck. It is said that only one tower of the cathedral remains standing. Thousands of inhabitants are hiding in cellars and behind barricaded walls. Shells were falling on all sections.

Unwilling to abandon his 16 year old daughter Mabel, who was partly paralyzed, William H. Stutzman, 46 years old, with two other members of his family, a son and a daughter, died with her in flames which destroyed their home in East St. Louis, Ill., yesterday.

## GERMAN POSITION BECOMES SHAKY

Important Change in Military Operations in Poland.

## CZAR CHANGES PLAN

Hindenburg Realizing Futility of Slaughtering Men by Throwing Them Upon the Russians.

Petrograd, Feb. 25.—The important campaigns in Poland can best be gauged by the military estimates of the present disposition of the German forces. They are believed now to have barely 300,000 men stationed at selected points outside their old positions along the Bzura and the Rawka where the Russians are proceeding steadily with the destruction of the Germans elaborate underground cover.

General von Hindenburg has now in the north, from Wloclawek stretching eastward parallel with the frontier nearly 1,000,000 men divided into four armies, spread along 180 miles of front to near the Riemer. He has completely reversed his plan, which failed against the Bzura and the Rawka. Ten weeks of desperate onslaughts upon that narrow front have convinced him that, even by discounting his most appalling losses, nothing would be gained by throwing great masses of troops into frontal attacks against the Russians.

He has reconstituted his main eastern army, and is spreading it over a front where there is ample space to deploy, but he is handicapped by the extreme scarcity of railways and by the Russians having already seized and held positions essential to his plan. One of these positions is Przasnysz, which obstructs the chief rendezvous across the border by railway from Prussia. Another is Ewado which prevents the Germans from getting near Bobr, between the fortress of Ossowetz and Lomza.

The German situation is made very shaky by the Russian aggressive from Grodno from combination with the heroic fighters from General Bulgakoff's force, which inflicted terrible slaughter upon the Germans while they were closing round it among the thick woods of Augustowo.

The Germans lost heavily on Monday in attempting to advance on Ewado from above Ossowetz. A great number of armored cars, with quickfiring was brought on the scene, but when some of them attempted to leave the highway to support the infantry they sank, and were water-logged in the thawing fields.

Berlin, Feb. 25.—The official report given out in Berlin today admits that the Russians have succeeded in crossing the Bobr River, in Northern Poland, in two places.

## REMOVAL OF RIXEY.

City Sergeant Cox Places Former Banker in Asylum at Marion.

Robert H. Cox, city sergeant of Alexandria, left yesterday for Staunton, Va., to take charge of C. Jones Rixey, former president and treasurer of the defunct Virginia Safe Deposit and Trust Corporation of this city, and remove him to the Hospital for the Criminal Insane at Marion, Va. Rixey has been an inmate of the Western Asylum for the Insane at Staunton and his removal to Marion comes at the end of a long legal fight which was finally decided by the Supreme Court of the United States. The aged banker escaped trial on the indictments pending against him in connection with the failure of the concern when he was declared of unsound mind by a commission of alienists.

## W. C. FOSTER NAMED

Young Alexandria Attorney Appointed Deputy Stamp Collector.

Walter C. Foster, a well known young attorney of this city, has been pointed as United States Deputy Stamp Agent with office in this city. He will succeed Captain J. B. Beverly, who has been named as clerk of the courts of Winchester, Va. Several days ago it was announced that S. R. Armstrong of Rappahannock Co. had been named to this position. This action had been taken but it is understood that Mr. Armstrong was not approved by the department in Washington. Mr. Foster's appointment followed and he will take up his new duties on March first.

The appointment will be well received in Alexandria as Mr. Foster has made himself very popular since he came to live in Alexandria several years ago.

## ATTEMPTED MURDER.

Boy Makes Attack on Former Portuguese Minister.

Paris, Feb. 25.—A dispatch from Madrid states that an attempt was made last night to murder Dr. Alfonso Costa, former premier and minister of finance, and now leader of the democratic party in Portugal. The assault was made by Jose Francisco Silva, a student, aged 14 years. As Senor Costa was boarding an express train to go to Lisbon, Silva approached him, drew a revolver, and fired twice. Both shots missed. The boy was arrested. He declared that no one had incited him to commit the act.

Lisbon, Portugal, Feb. 25.—The Portuguese government has decided to postpone the general elections, sine die, and it has ordered a revision of the present census. This decision is a hard blow for Dr. Alfonso Costa, who, under the existing census, undoubtedly would have obtained a majority vote because of the enforced or voluntarily abstention from voting of the other parties. Posters and manifestos against the government and Premier Castro have made their appearance upon the walls of Lisbon, and a number of men caught distributing these handbills have been arrested.

## QUAKE IN CALIFORNIA

Violent Upheaval and Earth Cracks Near Mount Lassen.

Redding, Cal., Feb. 25.—News was brought here today of a severe earthquake Sunday night in Twin Valley 30 miles east of here and 20 miles north of Lassen Peak. The ground cracked in all directions, and one house was tilted over five feet out of plumb by the sinking of the earth.

Large rocks have disappeared, while new springs have appeared. An acre of ground sank 60 feet. The snapping and roar of the earth's crust has been likened by residents to the roar of a heavy wind.

It is not known here whether the mountain is now in eruption, as the peak is obscured by heavy rain clouds.

## BLINDED BY MOVIE FILM

Boy Who Haunted Picture Shows Day and Night Victim of Flicker.

Oil City, Pa., Feb. 25.—Ralph Heckathorn, the 14 year old son of Jesse Heckathorn, recently developed an alarming affection of the eyes, and his physician in consultation with a specialist today decided the boy had been blinded by moving pictures.

It developed the lad had been in the habit of going to the picture theatre in the afternoon, remaining until supper time and returning in the evening to stay until the places closed for the night. The constant strain of the flickering pictures wearing on the optic nerves is said to have brought about atrophy of the nerves and it is probable that he will be totally blind as a result.

## FIVE HATS IN RING FOR GOVERNOR

Floyd King Latest to Declare Intention to Enter Arena.

## A FEW NON-COMMITTAL

Election Two Years off—Other Aspirants May Announce Themselves Candidates Later.

Richmond, Feb. 25.—For Governor—John Garland Pollard, Attorney General J. Taylor Ellyson, Lieutenant Governor; Richard Evelyn Byrd, United States District Attorney for the Western District of Virginia.

For Lieutenant-Governor—Judge Martin Williams, of Giles, floor leader of the House of Delegates.

For Attorney General—Floyd King, of Clifton Forge.

That is the definite line up for the Democratic primary to be held more than two years hence. There are numerous probabilities and possibilities but of these it can be said that at this time at least they are candidates.

Floyd King is the latest Richmond in the field. Mr. King says yesterday that it has been his intention to run for Attorney General ever since he retired last time on the entrance of Mr. Pollard into the field. However he had no announcement to make. The others are actively in the field now, all but Mr. Byrd having made formal announcements.

The probabilities are Harry St. George Tucker and Westmoreland Davis for Governor; James Catton, of Alexandria, for Lieutenant Governor; Hugh A. White of Rockbridge, for Attorney General.

The possibilities are Congressman Carter Glass for Governor and Christopher Garnett for Attorney General.

For Commissioner of Agriculture there are no candidates this early, although it is presumed that Mr. Kijner will be a candidate for re-election.

It is a curious fact that although the gubernatorial primary is two years in the future and the senatorial primary but one year, there is more talk of the former and no announcements for the latter. Senator Claude Swanson, of course, will be a candidate for re-election, but there has been no announcement on the part of any one who wishes to succeed him—if there be any such. Carter Glass is the only man mentioned and he insists upon keeping his own counsel. He will make no announcement of his intentions until such time as he thinks it advisable. There is plenty of time, is his position.

State Senator John Saunders, of Middlesex, denies that he intends to become a candidate for Attorney General. He will seek re-election to the Senate, he said.

Richmond, Feb. 25.—Will Harry St. George Tucker shy his hat into the ring and make the race for Governor to succeed the Hon. Henry Carter Stuart? Mr. Tucker has been asked that direct question, and he comes back with a reply which leaves the question just at the point of starting.

Mr. Tucker sees no reason for rushing things, declaring his belief that Governor Stuart ought to be allowed to go ahead and work out his policies before there is any discussion as to who will be his successor.

The reply of Mr. Tucker leaves one free to form his own opinions as to whether he will take another whirl at the game.

But, in order that readers may form their own ideas as to what Mr. Tucker will or will not do, the following letter from him is printed:

"Your wire did not reach me till today, when it was too early for candidates for the next governorship of Virginia to be announced. The issue upon which a candidate may be chosen may yet be in the future—there's plenty of time yet.

"Let's give Governor Stuart some chance to carry out his well considered policies before suggesting his

## WOMAN PREFERRED JAIL

New York, Feb. 25.—The board of health's order that all dogs in the streets of New York city should be muzzled was upheld yesterday by the supreme court in a test case instituted by Mrs. Mary Knoblauch.

Mrs. Knoblauch elected to go to jail rather than muzzle her lap dog. Her lawyer obtained a writ of habeas corpus, which was dismissed today by the court.

Mrs. Knoblauch claimed the board's ruling was unconstitutional. The court decided that the board was within its rights in making the rule to protect the public from rabies.

## APPEAL AWARDED IN ROLLING STOCK

Court of Appeals Will Review Evidence in Case of Richmond

## MAY PROVE TEST CASE

No Decision, it is Believed, Will Affect the Final Disposition of the Controversy.

Richmond, Feb. 25.—Two appeals brought by the city of Richmond against the decision of the State Corporation Commission dividing and apportioning the rolling stock taxes among the counties through which the railways pass, were awarded yesterday by Judge James Keith, of the State Supreme Court of Appeals. Evidence in both cases will be reviewed by the Supreme Court, and if the demurrer of the city be upheld they will be returned to the State Corporation Commission for a rehearing.

It is possible, however, that no decision will have a bearing upon the ultimate disposition of the question as the special session of the Legislature called to revise the tax laws has included in a new act the segregation of rolling stock tax to the State.

The appeal was awarded in the case of the Commonwealth of Virginia brought at the relation of the City of Richmond, against the Chesapeake and Ohio Railway Company and against the Virginia Railway and Power Company, both of which have their main offices here. The Legislature of 1914 changed the law which gave to the cities in which the home offices of railway companies are located all the assessments, so that the taxes are divided among the counties through which the railways operate.

Richmond and Petersburg petitioned the State Corporation Commission to hear them, by counsel, against the enforcement of the new law, and the railway companies, who were actually disinterested parties to the cause, filed formal answers. Opposed to the counsel of the two cities and of the railway companies came attorneys for interested counties and the law was upheld. It was agreed, however, that it should not be enforced until the state Supreme Court of Appeals had decided upon the question.

The final order of the State Corporation Commission was made on January 21 of this year, and demurrers filed by the defendants in the cause were sustained and the petitions of the two cities dismissed. Six petitions were filed with the commission against the Chesapeake and Ohio Railway Company, the Southern Railway Company, the Richmond, Fredericksburg and Potomac Railway Company, the Virginia Railway and Power Company, the Richmond and Rappahannock River Railway Company, and the Richmond and Chesapeake Bay Railway Company.

By consent the petitions were heard together along with similar petitions filed by the city of Petersburg against the Atlantic Coast Line Railway Company, and the Seaboard Air Line Railway Company. It was also agreed that the petition of Richmond against the Chesapeake and Ohio Railway Company and against the Virginia Railway and Power Company should be held and considered as test cases.

The Committee on Appropriations refused to include in the general deficiency bill, reported to the House yesterday a provision appropriating \$290,000 for the relief of the Danbury hat makers who are liable under court judgments in the amount named for violations of the Sherman anti-trust law. This matter was taken up with the House committee by Samuel Gompers and Judge Alton B. Parker last Saturday. They made a strong appeal for the relief asked. The committee, by a practically unanimous vote, refused to sanction the appropriation.

## OFFICERS RECONCILED

Police Commissioners Bring About Understanding Between Members of Force.

A special meeting of the board of police commissioners was held last night on account of the postponement of the regular meeting of February 17th.

The principal business considered by the commissioners was the investigation of a disagreement said to exist between two members of the force who were not on speaking terms. It was shown that the misunderstanding had been settled but the commissioners held that the men must "kiss and make up" officially and that Chief of Police Goods must preside at the ceremony.

A resolution was adopted requiring all barber shops and shoe shining parlors to close their doors at noon on Sundays.

### LITTLE CHILD PERISHES

Ineffectual Efforts to Save Girl From The Flames

Richmond, Feb. 25—Three year old Ola McGraw, daughter of Mrs. Minnie McGraw, of 2508 Bainbridge Street, Swansboro, was yesterday morning suffocated to death from smoke and flames while her mother and sister were helpless to reach her, in a fire which burned the McGraw home to the ground and practically destroyed the home of J. T. Fowler, who lives next door. Little Ola was asleep in a room on the upper floor, where the fire started, and when she was awakened the flames and smoke were so dense in the room that she was powerless to help herself.

The child's mother was preparing breakfast on the lower floor when she found that the house was afire. An older daughter, Lillian McGraw, who is about seventeen, was asleep on the upper floor with a girl companion, who was visiting her, at the time. The older daughter and her guest had to rush from the house in their night clothing, so quickly did the flames spread. Neighbors who endeavored to extricate the little girl were driven back by the smoke.

### MODEL TAKES PLEDGE

Former Famous Beauty Tells Magistrate She's Tired of Life

Philadelphia, Feb. 25—The model who inspired and posed for many of the most famous drawings of Chas. Dana Gibson and Howard Chandler Christy stood in a police station here yesterday a wreck of the beautiful brunette she once was. Her name is Nellie Hulges. She took the pledge before Magistrate Carson to abstain from further use of liquor.

Still possessing some traces of the dark beauty which had fascinated Gibson and Christy—a beauty which subsequently smiled down on admirers in thousands of homes—the model said she was tired of life. At 29, she said she had nothing further to interest her and admitted she had been fighting a losing battle since her husband left her, taking their young daughter with him, about a year ago.

Magistrate Carson gave the young woman kindly advice and administered the pledge.

## POLICEMEN RECONCILED.

The Board of Police Commissioners, it seems, had an interesting case to handle at the meeting last night. It was an estrangement between two members of the force—that is they were not on speaking terms—a sad condition of affairs in a corporal's guard of men supposed to work harmoniously in an occupation where an interest in one and another is the prime essential. The board brought about a reconciliation which it is hoped will prove effectual, and that no more bickerings among officers of the law will be brought before them.

Policemen, like other specimens of the genus homo, have their likes and dislikes, and the above is not the first time those in charge of the force have been burdened with such issues. According to the charter of the city, the force after it shall have been organized, is under the control of the Mayor of the city, and he is to use it for the preservation of the peace, &c. His coadjutors are members of the Police Board. Should he lend his ear to all the complaints and umbrages of this and that one he and the board would have their time consumed in untangling grievances, real and imaginary. Being the friends of all, they naturally use discretion towards bringing the peace feeling which should always prevail among a little band whose interests are identical. Occasionally, however, their good offices are not heeded and as was the case last night, the commissioners are compelled as a body to act and use a pressure which should never be necessary.

There are many thoughtless people in this world who bring trouble upon others which could be easily avoided were they simply to do their part, and the Mayor of the city is too often called upon to bear burdens not his own. The chief executive of the city has enough to occupy his mind without being saddled with petty misunderstandings between members of the police force, who should be his earnest coadjutors. He has to listen to the complaints of the entire community, and there are always enough to keep his mind employed night and day. The Mayor strives to steer clear of any manifestations of favoritism in dealing with his subordinates, as should he espouse the cause of any individual or clique he would precipitate unfortunate conditions which would clog the wheels of government.

It is hoped that the members of the police force, who show their responsibility in emergencies and occasionally risk their lives in the performance of their duty, will realize that there is another solemn duty incumbent upon them, which may be put in scriptural words—"Be at peace one with another."

## WARFARE AGAINST MERCHANT SHIPPING.

Proposals by the United States directed toward ending submarine warfare against merchant shipping are being considered by the governments of Great Britain and Germany. These proposals include an offer by the United States to supervise the distribution of foodstuffs to the civil population of Germany, provided Great Britain will permit foodstuffs in neutral ships to reach German ports and Germany will agree to abandon her attacks upon shipping.

It must be evident to both Germany and England that present conditions cannot be endured much longer by either nation. It is a matter of time when the exhaustion of food supplies will bring both to their senses. The British lion and the German eagle are both game, but the hawk and the wolf will soon be equally dreaded. This creature is already nosing around Germany and Austria, and his howling

is gradually spreading. The roaring of the king of beasts or the screeching of the king of birds have no terrors for him, as while they are fighting among themselves for supremacy this dreaded prowler will be peering in the cottage window or windows in the palace.

The fact that the proposals of the United States are being considered by the belligerents is significant. Hunger cannot be endured by either and this is inevitable if present conditions are continued in the North Sea and other waters which surround the British Isles and the Fatherland. The cry for food in both nations will aid more in calling off submarines and dreadnaughts than any course of diplomacy. This cry is now comparatively feeble, but within the next few months it will become more pronounced. Before another year shall have elapsed every man or boy capable of bearing arms may be with the colors of their respective countries. Already Germany is considering taking children from school and making them work in the fields this spring and summer while their fathers and brothers are engaged in the clash of war. Similar measures may be resorted to in France and England in the near future.

## ADDING MACHINE FOR CITY.

(Communicated.)

Why the necessity of an adding machine? An appropriation of over three hundred dollars, interest on six thousand and five hundred dollars, with our "temporary loan" amounting to tens of thousands of dollars. Is it possible that our city officials duties are so arduous they do not have the time to add figures accurately. If so, let them resign. I am of the opinion, competent men can be found who are able and willing to assume the responsibility of continuing along the old lines, at the same salaries, (possibly less), and continue the old system, and thereby save this (in my opinion) unnecessary expense.

### SIGNIFICANT HINT

United States May Use Hunger Against Warring Nations.

Washington, Feb. 25.—The United States may call hunger as her ally to bring England and Germany to their knees in their submarine warfare now threatening American commerce. Such was hinted in official circles today.

Sponsors for the suggestion declared the President would lay an outright embargo on exportation of foodstuffs to both the allies and Germany unless all parties involved yield to America's latest suggestions. In this connection it was recalled that the President has recently been urged strongly to take such a step regardless of the war zone situation.

## BITTER AGAINST BRITISH

German Soldiers Tell French They Have Quarrel Only With English

London, Feb. 25.—"The campaign of hatred conducted by the press and public men of Germany against Great Britain is not without its effect upon German soldiers," says a report by the official "eyewitness" with the British forces made public tonight.

"There are signs of greater bitterness displayed toward us than toward our allies," the report continued. "This is noticeable lately in attempts to impress upon French that the real quarrel is not with them, but with the English."

"A few days ago the Germans shouted to the French that they had no desire to fight them; that the English were their only enemies. They threw messages into the French trenches to the same effect. Taken in connection with other incidents, these actions are not without significance."

Reviewing operations since February 14, the report states that for the first three days fighting was almost continuous on the British left in the neighborhood of the Ypres-Comines Canal. During the night of the 14th the whole line, which had previously been lost by the British was regained, with the exception of a trench about eighty yards in length. During the night of the 15th the line was restored. "The enemy's dead lay thick along the front," the report says.

## ITALY CAUSES UNEASINESS

Germany Anxious as to Part Country Will Play at Present.

Berlin, Feb. 25.—A sudden change of feeling concerning the attitude of Italy has been noticeable in diplomatic quarters here during the last few days. The position of Italy appears to have become a matter of much greater concern. The reasons for this change are not clear at this time.

Rome, Feb. 25.—Close observers in Rome of the political situation declare that since the readiness of Italy to join in the war has become apparent, the insistence of Germany upon her continued neutrality has grown stronger.

It is declared in a reliable quarter that Prince von Buelow, the German Ambassador to Italy has summarized the Italian situation to his government substantially as follows:

Italy has spent nearly \$400,000,000 in war preparations since the outbreak of hostilities; consequently action on her part is daily becoming more imperative. Furthermore for internal reasons, all political parties are asking the government to obtain as a result of diplomatic negotiation or through the use of the Italian army or navy, the fulfillment of the aspirations of the nation particularly in return for the heavy sacrifices already made.

Germany has urged Austria-Hungary strongly to cede to Italy her Italian province of Trent, and a portion of the Istra peninsula, with the idea of keeping Italy neutral at the present time, and enlisting her favor for the future.

It has been asserted in Rome that Prince von Buelow has said Austria must be induced to accede to his views concerning territorial concessions to Italy, else he would resign his post.

## Suicide of a Farmer.

Jetersville, Va., Feb. 25.—W. E. Orange, a farmer living on Dr. L. H. Vaughan's estate, about eight miles from this place, got out of bed about 3 o'clock yesterday morning, took his lantern and shotgun, went up to one of the tobacco barns and, with the use of a tobacco stick to push the trigger, shot off the top of his head, dying instantly. He had returned from the sale of tobacco, and seemed to be all right in every way. He leaves a wife and thirteen children.

## CIRCLE OF SUBMARINES.

Flotilla of Prowlers Prepare to Sow Mines

London, Feb. 25.—The British Isles are ringed with German submarines. The admiralty has ordered every port to be watched with extraordinary vigilance, as a steamer was sunk near its pier at Eastbourne.

The ship Western Coast has been sunk off Beachy Head, either by a mine of a German submarine. Her crew was landed at Portsmouth today.

Astonished by the German daring and skill that has sent the under-sea craft into the closed waters of the hitherto "tight little island," the British admiralty received word today that a flotilla of trawlers was on its way to sow floating mines up and down the British coast.

Repeated submarine attacks on merchant shipping and further destruction of vessels by mines in the war zone has exasperated the British people and constant demand is made that the government order an immediate and effective naval blockade of the German coast even at the risk of the loss of one or more of the nation's first line battleships.

## RACE IN AUTOS FOR BRIDE

Washingtonians On Way to New York Stop To Aid Rival

Frederick, Md., Feb. 25.—Within a few miles of each other Raoul Le Mat for four years coach for the Georgetown College football team and a record-holder for roller skating, and Stanley James, of Washington, a racing automobile driver, passed through this city Tuesday in automobiles on a dash to New York.

The hand of Miss Margaret H. Gale, according to the racers, is pledged to the one who gets there first.

Both have been paying court to the young woman for some time, they said, and she agreed to accept the one who wins the race. She is a Vermont girl by birth, a Southerner by adoption, but has been living for sometime in New York.

One of the racers stuck in the mud on the mountain between this city and Hagerstown and his opponent stopped and helped him out.

Unable to get bread, even though they held tickets, scores of women and children Tuesday made desperate efforts to loot the shops at Madgeburg, Prussia. The police quelled the riots only after great difficulty. Several were arrested before the women and children holding their tickets aloft and screaming for bread could be driven from the shops.
